- At the end of the Notebook Leasing Program, students are required to bring their Notebooks to the IT Dept. and for legal reasons, have their devices wiped of any College Licenced Software before taking ownership.

Early termination of the Notebook Leasing Program (Students leaving Shalom before the end of year twelve)

- Students who leave the College before the completion of their studies in year twelve will be given the option of purchasing the notebook for the balance that is outstanding on their lease.

Family Zone Year 7 - 12

Shalom families have access to a Family Zone Family Pack, which covers 3 children and 6 devices. This is paid for by the school so there is no additional cost to parents. By setting up a private Family Zone account, you can apply age-appropriate parental controls on every device your child has access to, in any location.

We urge you to set up your family's account when you receive your activation email from Family Zone. Only by working together can we meet our digital duty of care - at school, at home, and everywhere in between.
