SHALOM COLLEGE - PLAN FOR LIFE AFTER SCHOOL

CQU Experience Day

A group of 44 enthusiastic Shalom students attended the Year 12 CQ University Experience Day recently to tour the campus and discover the vast range of options available to study at their local university.

Students from Bundaberg high schools attended the one-day event, taking advantage of the opportunity to attend information sessions, ask questions and hear about what to expect when they enter tertiary study. Students participated in a number of interactive sessions that were aligned with their courses of interest which ranged from aircraft inspections (Bachelor of Aviation) to gameplay testing (Bachelor of Digital Media), simulations (Paramedic Science / Nursing / Medical Science) and so much more.

The experience really immersed students in uni life for a day, providing them with a representation of what they can expect if they enrol into post-secondary education at CQU.
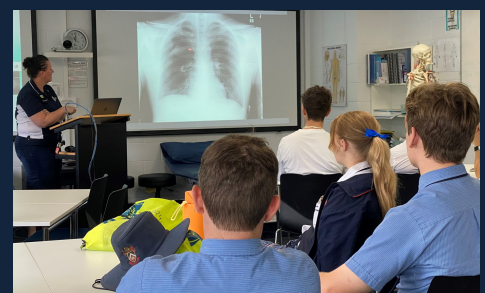

Any students who may have missed the Year 12 Experience Day may like to attend the CQU Bundaberg Open Day on Thursday, 11 August from 4-6pm to discover all the options CQU has to offer. Register here to attend so you can stay up to date about the event, your course of interest and upcoming application. You will also automatically be entered into the prize draw to win some great prizes when you register.

Alliance Airlines - Aircraft Maintenance & Engineering Apprenticeships

University of Southern Queensland FREE Resources for High School Students

A representative from Alliance Airlines, Rockhampton, visited recently to talk to students about Aircraft Maintenance and Engineering apprenticeship opportunities available at the end of 2022. The new Alliance maintenance and repair hanger is currently under construction in Rockhampton and is due for completion at the end of the year.

For any interested students who may have missed the talk, catch up on all the highlights here.

Find out more about Alliance Airlines.

Did you know that USQ Library Services offer online, open access (free) academic and research resources for high school students in the discipline areas of Biology, Chemistry, Physics, Psychology, Mathematics, Modern History, and Ancient History?

Discover databases, video libraries and academic skills resources to help you develop your reading, writing, exam preparation and maths for high school.

This platform is free and does not require an account to use. Access the Research Help for High School webpage, login as a guest and start accessing resources today.
