**2019 Shalom College ICT Device Technical Requirements**

For more information, please go to the ITPortal – ITPortal.shalomcollege.com

**2019 Years 7, 8 & 9**

Bring Your Own (BYO) iPads do not require cellular functionality. They must meet the following requirements to ensure there is no impact on classroom learning:

- Be able to support the latest iOS released by Apple. Currently supported models can be found via this link - Click here for more information

- Have enough storage for college required applications (32gb recommended)

A ruggedised case is strongly recommended, to ensure the device is protected from accidental damage.

Access to an iTunes account is essential. Please click here for more details

**Optional**:

Bluetooth keyboard

**Recommendations**:

Applecare extended warranty. Click here for more information

All Student iPads that are to be used at Shalom require enrolment onto the College system. This enrolment sets up the wireless, our self-service software portal and the students email account. It allows the IT Department to manage the iPads whilst they are at the College.

For the enrolment guide please click on this link: BYOD Enrolment

**2019 Years 10, 11 & 12**

Families who choose not to opt into the Shalom College Laptop Leasing Program for students in years 10, 11 & 12 need to ensure that the following BYOD (Bring Your Own Device) requirements are met:

- Device Choice – Macbook or Laptop
- Operating system
    - OSX – 10.8, 10.9, 10.10, 10.11
    - Windows – 7,8 or 10 (Windows 10 Education Edition recommended)
- Screen size – 11.6" – 15"
- Battery life – 8 hours
- Required Software: Purchase of all curriculum required software for timetabled classes is expected
- Screen Mirror Support
    - Macbook – Airplay support

- Laptop – Miracast support (Supported by Windows 8 & 10, Laptop hardware needs to also support wireless display)

A strong, supportive case is highly recommended, to ensure the device is protected from accidental damage.

For BYOD there is limited Shalom IT support and network access.

Please be aware that BYO laptops do not have access to printing at the college and we are unable to install College licensed software onto BYO devices.
